A dichotomous key is a very useful tool. It helps you identify unknown organisms by using a system that helps you identify unknown organisms by using a system that breaks down the characteristics of a set of organisms into TWO groups over and over again until you only have

Building a Dichotomous Key: Take home Assignment Materials

In this lab, you will first use a dichotomous key to identify sharks. A dichotomous key is built around pairs of statements that describe a visible trait. The reader must select the statement in each pair that best describes an organism. By following the steps in the key, the reader narrows down the list of choices and finally names the organism. After you have learned to use a dichotomous key ...

Chapter 18 Lab Dichotomous Keys

Sharks using a Dichotomous Key ... To classify an organism, scientists often use a dichotomous key. A dichotomous key is a listing of specific characteristics, such as structure and behavior, in such a way that an organism can be identified through a process of elimination. In this investigation, it is expected that you: 1) Use a key to identify 14 shark families. 2) Study the method used in ...
