Skeletmuskulatur er en af tre store muskeltyper, de andre er hjertemuskulatur og glat muskulatur. Det er en form for tvârstribet muskulatur der er under 'frivillig' kontrol af det somatiske nervesystem. De fleste skeletmuskler er forbundet til knoglens ender med kollagenfibre kendt som sener.

Skeletmuskulatur - Wikipedia, den frie encyklopædi

Il nervo radiale è un nervo nel corpo umano che innerva la porzione posteriore dell'arto superiore. Innerva le teste mediali e laterali del muscolo tricipite brachiale, così come tutti e 12 i muscoli nel compartimento osteofasciale posteriore dell'avambraccio, le articolazioni associate e la cute sovrastante.
