number of deaths from mining accidents seldom exceeds 200 a year. In 19<sup>^</sup>6, the last year for which we have detailed figures, 8162 miners were killed in accidents and the accident death rate was 1.Â£6 per 1,000 workers. In 1910 the rate was 4.40 for black and 3.49 for white workers.<sup>3</sup> But the incidence of accidents increased from 30 per 1,000 workers in 19274, when the existing definition of ...

4“5 times more likely to lose their lives in mine accidents in South Africa than in Australia. A major difference between South Africa and other major mining countries is the depth of gold mines, the labour intensiveness of gold and platinum mining, and the large number of workers on a single mine (the last presents significant organizational and logistical challenges). In contrast ...
